

Wood chips for trains

by TheMrSeq

What this mod does

This mod changes the XML-File of Goldcreast Valley, so that the train stations can store wood chips.

Besides you can sell wood chips at Mapelfields Mill now.

Also it replaces the XML-File of one train wagon.

Unfortunately it is necessary to replace the original files.

Maybe you can't play in multiplayer, while this mod is installed.

This can be solved by uninstalling this mod.

I'm still trying to make an independent mod for it, so you don't have to replace the original files.

I hope you'll have fun with it!
